About

Looking for work and aspiring to be a junior front-end web developer, I have an associate of science degree in computer technologies from Great Bay Community College as well as a certificate from the University of New Hampshire for completion of the UNH Coding Boot Camp. Dedicated and methodical problem-solver with a passion for finding the most efficient code solutions and that frequently uses that mindset to solve problems in everyday life. Always ready to learn more as technology is ever changing. Open to being flexible whenever need be and interested in collaborating with team members to accomplish a goal. My strengths include creativity, teamwork, communication, logical thinking, and project development. I have acquired a diligent work ethic from working on a farm at a young age, obtaining a lot of knowledge of plants. Developed my cooking skills working in many different positions in the restaurant industry, as well as have some customer service and retail experience.
